

# MEET OUR HIGH PERFORMANCE AND HIGH-DENSITY BLAST PIPE.

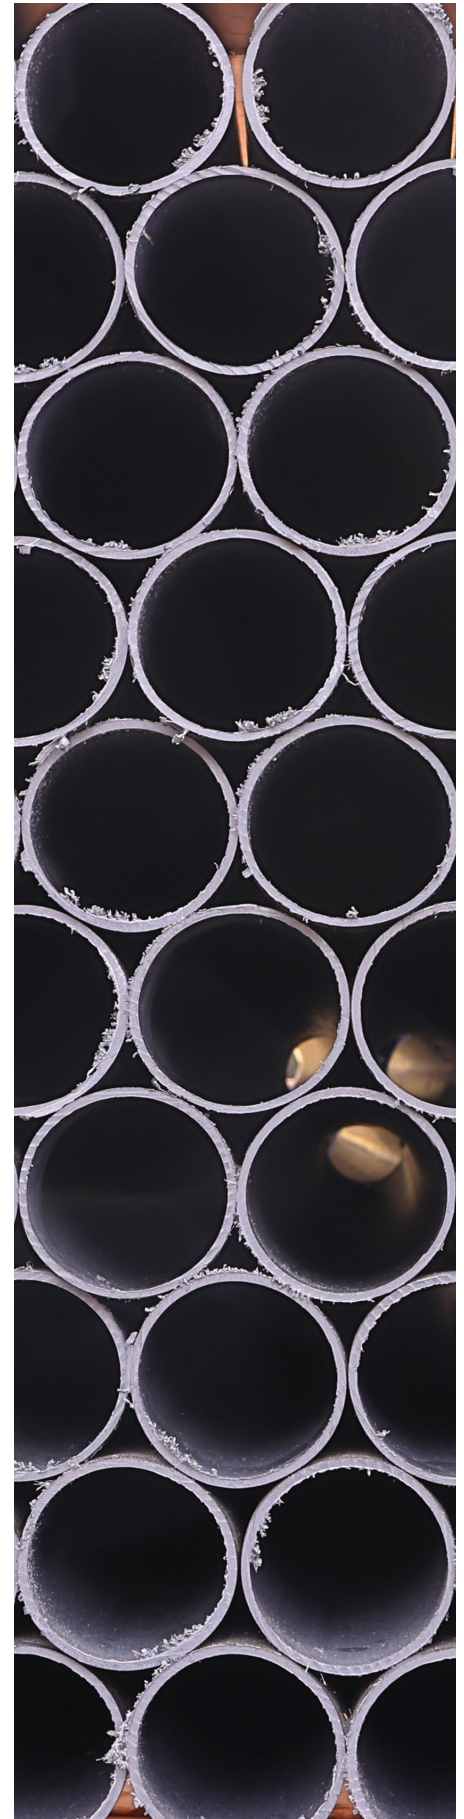

## BP16™ BLAST PIPE

BP16™ is our signature solution for stability in blast holes, cuttings and the preconditioned columns after drilling.

Our BP16™ is designed specifically to reduce re-drills and retain drill depths. Available in a wide range of diameters and lengths.

### PRODUCT FEATURES:

- Drill depth retention
- Improves column quality
- Minimal material fall back
- Significantly reduces column re-drills
- Light-weight and easy to install
- Weather resistant
